Installation Instructions

Doors and frames arrive mortised and cut to size.

Verify the level of the wall and rough openings

Identify the furthest point out of level of the wall. (This is where the door is installed).

Installing the Plywood jamb frame

Place and screw wood shims leveling the Plywood jamb frame inside 2'x4' rough.

Ombra/ floating jamb with shadow reveal

Hinge installation

Fit and screw hinges into the frame and door, then connect and screw hinges together while hanging door inside the plywood jamb frame. Use hinge adjustment screws to center door inside of the plywood jamb frame.

Handle installation

Screw handles into the mortised holes of the door and install rosettes. Proceed to cut the wood shims around the frame.
